

NX

LEXUS
EXPERIENCE AMAZING

NEXT IS NOW

THE CAR WITH
TOMORROW WRITTEN
ALL OVER IT.

The NX 450h+ is a class-leading luxury crossover that signifies a plugged-in future for the NX range. It boasts a wide selection of features that are out of this world, from its cockpit and multimedia layout that intuitively connects you to the vehicle, to the Lexus-first digital e-Latch with Safe Exit Assist, and more.

Five models make up the NX range:

NX 350h EX
NX 350h SE
NX 350h F SPORT
NX 350 F SPORT
NX 450h+

Model shown NX350 F SPORT.

AN INNOVATIVE CONNECTION BETWEEN MAN AND MACHINE

Equipped with the refined Lexus Driving Signature (LDS), the Lexus NX provides an enhanced driving experience that's way ahead of its time. Rooted in the Lexus practice of *Omotenashi*, the Lexus Driving Signature showcases our innate attention to detail, *Takumi* craftsmanship, and human-centred creative process. It also enables a human-machine connection like never before, allowing you to have a more comfortable drive.

REDEFINING THE FUTURE OF DRIVING

NX 450h+

Experience the most powerful and refined NX line ever, with a choice of either petrol, hybrid powertrain, or Plug-in Hybrid Electric Vehicles. The NX 450h+ boasts a 2.5-litre, 136kW, Total system output of 227kW, fuel consumption of 1.3 litres and CO₂ emissions of 29g/km. All the options offer a platform with an extended wheelbase, lower centre of gravity for a more confident ride, and an enhanced all-wheel drive.

NX 350 F SPORT

Delivering 205kW of power and 430Nm of torque at 1 700–3 600rpm, the NX 350 F SPORT has an eight-speed automatic transmission that offers smooth and dynamic gear changes. Its 2.4-litre, four-cylinder turbo petrol engine consumes 8.1 litres of fuel per 100km.

AN ENGINE DEDICATED TO A GREENER TOMORROW

Discover what the future holds with the NX hybrid range that blends dynamic driving with exceptional fuel economy. Each model is powered by the Lexus Hybrid* Drive system, which fuses petrol and electric engines to deliver a drive that comes straight from the future.

NX 350h EX, NX 350h SE & NX 350h F SPORT

Offering a total system output of 179kW, the NX's 2.5-litre four-cylinder hybrid engine is environmentally conscious, producing just 114g of CO₂ emissions per km. Reaching a top speed of 200km per hour, it achieves an optimised driving with its controlled Continuously Variable Transmission (CVT) using 5.0 litres of fuel per 100km.

A CAR THAT LOOKS AS AHEAD OF ITS TIME AS IT DRIVES

Striking from every angle, the NX's exterior design features a captivating spindle grille, stylistic lines, and a muscular physique. The design is distinct and athletic thanks to its ideal proportions, wider front and rear track widths, sleek front and truncated rear. It also has larger wheels and tyres (20-inch wheel is available on the F SPORT), and a purposeful juxtaposition of sharp edges and large curved surfaces.

EXTERIOR DESIGN

SPINDLE GRILLE

The grille pattern features a sleek three-dimensional sense of depth, to express a powerful look. A slit-shaped opening at the bottom enhances cooling performance and communicates a sense of power befitting an SUV.

Model shown NX 450h+ SE.
South African vehicle specifications may differ.
*Available on selected models.

PANORAMIC ROOF*

Our panoramic roof with an outer sliding moveable glass for front passengers and an extended panoramic roof for rear passengers gives all guests a beautiful view of the sky as well as a spacious, open feel.

20-INCH* WHEELS

Created to stand out, the NX has head-turning wheels. Its 18-inch alloy wheels complete its bold sports look which gives it a sophisticated appearance.

REAR L-SHAPED LIGHT BAR

The L-shaped combination lamp on the rear fender functions as a tail-light and illuminates the rear brand signature giving the rear a tight, contemporary look. The NX's rear Lexus badge is a simple and modern touch that is both sleek and recognisable.

INTERIOR LUXURY

TIME-DEFYING LUXURY

True luxury is timeless, which is why the NX seamlessly blends traditional Lexus lavish appointments with modern technology. Embodying the *Tazuna* concept – the Japanese word for a horse's reins – the NX's cockpit design seamlessly and intuitively connects you to the vehicle, much like the bond between horse and rider.

Model shown NX 350 F SPORT.

HANDS-FREE* KICK SENSOR

The Lexus NX takes your convenience seriously thanks to a hands-free kick sensor. When your hands are full, a simple wave of your feet beneath the rear sensor raises or lowers the rear door.

THE DIGITAL* REAR-VIEW MIRROR

Enjoy safer manoeuvring with our digital rear-view mirror, you can turn and reverse with the peace of mind that there won't be any surprises.

LEATHER* SEATS

The luxurious perforated leather upholstery is the perfect balance between sophisticated styling and comfort. The seats were created using mathematical curves, effortlessly enveloping the driver for a smooth and supported driving experience.

HUMAN-CENTRED CABIN

The cabin draws on the *Tazuna* concept philosophy based on the creation of a space that extends *Omotenashi* hospitality to individual occupants and creates intuitive connections between car and driver to facilitate concentration on driving operations.

SEAT VENTILATION AND SEAT HEATERS*

Experience next-level comfort courtesy of the NX's seat heaters that keep the cabin comfy when temperatures drop. On hot days, you and your passengers can enjoy your own levels of cooling with the dual-zone air conditioning.

E-LATCH DOOR HANDLES

An e-latch system replaces the conventional door latch mechanism with an electronic control that opens and closes doors smoothly like a sliding Japanese *Shoji* paper door.

Images shown for illustrative purposes.
*Available on selected models.

A CAR THAT PROTECTS BOTH PASSENGERS AND PEDESTRIANS

Built with the Lexus Safety System+ 3.0, the NX offers features that protect pedestrians as much as you and your passengers. With future-facing technology that can automatically brake for oncoming cars, slow down when manoeuvring around corners and more, it's our most advanced standard safety suite ever.

Model shown NX 450h+.
South African vehicle specifications may differ.

LEXUS SAFETY SYSTEM+ 3.0

The future-forward NX comes standard with features that were developed to assist with accident prevention.

ADAPTIVE ALL-SPEED CRUISE CONTROL

The system uses an advanced millimetre wave radar sensor and camera to detect the vehicle in front and provide control to maintain an appropriate following distance. If the vehicle in front comes to a halt, the system will stop the NX. When the vehicle moves off again, the NX will start off and continue following.

IMPROVED ADAPTIVE* HIGH-BEAM SYSTEM

The NX is equipped with headlights that provide greater visibility for drivers, adding illumination when the road ahead is clear, then temporarily switching to low beams when it detects the headlights or tail lights of vehicles ahead.

LANE TRACE ASSIST

The Lane Trace Assist with steering vibration will keep your NX centred in lanes and it can even provide steering assistance. Designed for added convenience and to help reduce driver strain, the system can also be used in traffic and on highways with gradual curves.

PRE-CRASH SYSTEM

The NX's Pre-Crash System uses sensors to detect any dangers in front of the vehicle. When the system detects a potential frontal collision, it helps provide steering assistance and automatically brakes to stop the NX.

SAFE EXIT ASSIST (SEA)

When exiting the NX, greater peace of mind is accomplished with SEA. Using sensors from the Blind Spot Monitor, SEA can detect vehicles and bicycles approaching from behind. When the door is opened, the system can detect an impending collision and will light the indicator in the outer mirror to alert the driver. If an attempted opening of any door is detected, the Lexus-first e-latch system allows door unlatch operation to be cancelled.

BLIND SPOT MONITOR (BSM)

BSM with Rear Cross Traffic Alert detects vehicles in adjacent lanes that are not visible on the door mirrors. If the driver is indicating to change lanes and a vehicle enters the blind spot, a warning signal appears on the relevant door mirror.

Images shown for illustrative purposes.
*Available on selected models.

TECHNOLOGY INSPIRED BY TOMORROW

The Lexus NX offers an array of human-centred innovative technology, from the Lexus 14-inch touchscreen display to the innovative in-cabin multimedia and more. Each technology adds to the driving experience and aims to enrich a genuine connection between you and the NX.

Model shown NX 350 F SPORT.
South African vehicle specifications may differ.

AUDIO SYSTEM

The NX features a 17*-speaker Mark Levinson®* audio system that can be linked to smart devices through either Apple CarPlay or Android Auto. All of these display the screen of the smartphone on the vehicle's infotainment screen, as well as linking the phone's audio output to the vehicle's speakers.

MYLEXUS APP

As with every Lexus vehicle, the NX can be connected to the MyLexus App on your mobile phone. Not only does it give you more control of your driving experience, it also opens up a whole world of personalised offerings and customisable features like in-car Wi-Fi, roadside assistance and more.

MULTIMEDIA SCREEN

Featuring an anti-reflective coating, the multimedia screen provides uncompromised clarity when using the high-resolution 14-inch touchscreen. It also utilises glare-reducing bonding technology and can be individualised in colour and font through five selectable themes.

EXPERIENCE THE DISTINCTIVE F SPORT RANGE

The NX F SPORT range is a glimpse of the future of sporty crossovers. Now available in petrol, hybrid powertrains, and Plug-in Hybrid Electric. With a unique spindle grille, sports seats, rear bumper, 20-inch wheels, and more, this NX is redefining the future of driving.

Model shown NX 350 F SPORT.

F SPORT BADGE

Although discreet, the F SPORT logo is a badge of distinction. The “F” refers to the birthplace and primary testing site of our thrilling F SPORT vehicles: the Fuji Speedway, located near Mount Fuji in Japan.

20-INCH WHEELS

The 20-inch gloss black aluminium wheels increase the NX 350 F SPORT's and the NX 450h+'s curb appeal and add to the sporty, modern appearance.

F SPORT GRILLE

The F SPORT trim features a Piano-Black grille and silver lower bumper to indicate its uniqueness.

F SPORT EMBELLISHMENTS

Featuring the F SPORT logo, you'll feel thrilled every time you take this wheel in your hands. Finished in 3-spoke leather, the F SPORT gearshift design matches the steering wheel to create an exciting, sporty ambience. The exquisite perforated leather sports seats hold you comfortably in place, while subtle details like the aluminium-finished pedals and scuff plate finish up the F SPORT's next-level design.

F SPORT REAR BUMPER

A silver rear bumper portion distinguishes its F SPORT status from the rest of the NX range.

THE LEXUS NX IS STEERING THE HYBRID ELECTRIC VEHICLE CHAT

Experience Amazing in the NX 450h+, an alternative energy addition to the NX range. As the most recent version of this crossover SUV, it promises nothing short of versatile excellence. Embrace the life of choices.

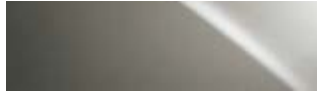

Discover the perfect blend of versatility and luxury in the NX 450h+, featuring 3-in-1 drive modes that seamlessly adapt to diverse driving needs. This dynamic crossover SUV intuitively switches between petrol, hybrid, and electric modes ensuring both efficiency and performance. Experience smooth acceleration and refined driving with reduced noise thanks to the synchronised operation of the engine and battery. All this incredible functionality is housed in an elegantly designed body.

LEXUS MAINTENANCE

INTRODUCTION

At Lexus, we take pride in the advanced engineering and craftsmanship of the vehicles we build. For that reason, our Warranty and Distance Plans are designed to provide Lexus owners with seamless vehicle maintenance and complete peace of mind. The Lexus Warranty and Distance Plans both enjoy full support by Lexus SA and offer customers access to specialised servicing, maintenance and repair at any Lexus dealer in South Africa, Namibia and Botswana.

WARRANTY AND DISTANCE PLANS

To complement its comprehensive Warranty, the NX features a Distance Plan Complete that provides for service and maintenance costs. The option to extend the period of cover is available for both the Warranty and Distance Plan Complete. These options can be discussed with your Lexus dealer. To familiarise yourself with the cover provided by Warranty and Distance Plan on the NX, please consider the information below.

WARRANTY

- Duration: 7 Years or 105 000km from original date of sale.
- Cover: Repair or replacement of components that fail or malfunction as a result of manufacturing or material defect.

DISTANCE PLAN

The NX features a Distance Plan Complete that will incept with the vehicle's Warranty.

- Duration: 7 service intervals or up to 105 000km.
- Cover: All servicing as per manufacturer's schedule (at least every 12 Months or 15 000km) as well as the replacement of components as a result of normal wear and tear.

Consult with your Lexus dealer for more information on the terms and conditions of the Warranty and Distance Plan Complete offered on the NX range. The NX 350h EX, NX 350h SE and NX 350h F SPORT models have a Hybrid Battery Warranty of 8 Years/195 000km.
